The Union Light, Heat and Power Company; Notice of Petition for Rate Approval

February 25, 1999.

Take notice that on February 12, 1999, The Union Light, Heat and Power Company (Union) filed a petition for rate approval, pursuant to Section 284.123(b)(2) of the Commission's Regulations, requesting that the Commission approve as fair and equitable a reservation fee of \$0.3441 per MMBtu for firm-no-notice Section 311 transportation services performed on its system. Union states that this rate was developed using the Straight Fixed Variable method of rate design and is a 100 percent reservation charge rate.

Union states that it is an intrastate pipeline within the meaning of Section 2(16) of the NGPA and it owns and operates pipeline facilities in Kentucky. The proposed cost of service and resulting unit rate are based on actual costs incurred for the 12 month period ended November 30, 1998 on Union's system. Union states that it will commence service on the date on which the petition was filed.

Pursuant to Section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and

for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene in accordance with Sections 385.211 and 835.214 of the Commission's Rules of Practice and Procedures. All motions must be filed with the Secretary of the Commission on or before March 9, 1999. The petition for rate approval is on file with the Commission and is available for public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (Call 202-208-2222 for assistance).
